Thirty-two privately-owned campgrounds, RV parks and resorts in 16 states have secured "A" ratings. The survey, completed by approximately 30,000 camping and RV enthusiasts, evaluated guest experiences at 2,400 independent campgrounds and RV resorts. The top-rated parks were announced at a December 3 ceremony in Las Vegas.

"Twenty two of the nation's 32 top parks in our survey also received 'A' ratings last year, while 13 parks have received 'A' ratings three years in a row," said Bob MacKinnon, president and CEO of GuestReviews, the Murrieta, Calif.-based company that created the online survey.

MacKinnon said GuestReviews expects to survey almost half of the nation's private parks, totaling more than 4,000 parks, within the next two years.
