

RV Electricity Technician Training

December 11, 2019

9:00 AM – 4:00 PM

NTP Stag/Keystone Automotive Operations
44 Tunkhannock Ave.
Exeter, PA 18643

Mike Sokol, Instructor

Lunch included

**Session is valued at \$300
FREE to PRVCA members***

Mike Sokol has been a live-sound, recording, and design engineer for over 38 years as well as a musician for 50 years who has run sound for thousands of Worship, Music, and Political events. In addition to teaching audio production at all levels, he's been a contributing editor for magazines such as Church Productions, EQ, Electronic Musician, and Mix, as well as a technical consultant to Apple Computer and Microsoft. During the past ten years he's presented over 600 seminars and Hands-On Workshops across North America at Churches, recording schools, universities, and professional audio organizations such as the Audio Engineering Society, the Society of Broadcast Engineers and NARAS (Grammy Awards Group).

***Technicians will need to bring their own meter and writing utensil**

HURRY! Only 30 spaces are available for this training.

Not a PRVCA member? Visit www.prvca.org and click on "Member" and "Become a Member" or email daniel@prvca.org for more information

Membership includes free year-round training events

This training session will give you the basics of electricity; including voltage, amperes, resistance, current and wattage. Learn how AC and DC electricity is used in RVs, the causes of Hot-Skin/Stray-Voltage and how to test for it, RV battery technologies and how they work, and Shore Power. This session will also discuss converters, inverters, battery chargers, float chargers/tenders, Generators, onboard and portable, neutral bonding, transfer switches, and finish up with electrical system maintenance.

This training is perfect for RV technicians of all skill levels!

* RV technicians are asked to bring their own meter and writing utensil
